

April 15 – 16, 2014 | Marriott Bloor Yorkville | Toronto

CI Energy Group's

Ontario Power

Bringing Clarity to Ontario's Evolving Power Industry Landscape

Conference Chair:

Charles Keizer
Partner
Torys LLP

Hear from leading power experts including:

David Butters

Association of Power Producers of Ontario

Sahar Mishriki

Hydro One

Douglas Moses

Ontario First Nations Economic Developers Association (OFNEDA)

Ken Nakahara

Ontario Ministry of Energy

Adam White

Association of Major Power Consumers

Mel Ydreos

Ontario Energy Association

Kristopher Stevens

Ontario Sustainable Energy Association

Brian Rivard

Independent Electricity System Operator (IESO)

Ron Oberth

Organization of Canadian Nuclear Industries (OCI)

Mark Arnone

Ontario Power Generation

Aloke Gupta

California Public Utilities Commission

Keynote Speakers:

Hon. Joe Oliver
Minister of Natural Resources
Government of Canada (Invited)

Hon. Bob Chiarelli
Minister of Energy
Government of Ontario (Invited)

Chuck Farmer
Director of Conservation
Integration
Ontario Power Authority

Anthony Haines
President and Chief Executive
Officer
Toronto Hydro Corporation

Hon. Bob Rae
Lead Negotiator for Matawa
Tribal Council and President
First Nations Limited
Partnership, BC

Take part in candid discussions, exchange ideas and hear the latest strategies and insights to ensure your organization can operate successfully in Ontario's ever changing power sector.

- How the **Long Term Energy Plan** will impact the future direction of the Ontario power sector
- Understanding how the major scheduled **nuclear refurbishment** will challenge the generation and distribution system
- Examining the increasing role **conservation** will play in Ontario's supply mix
- Progress on developing **infrastructure to power Ontario's north**
- Exploring how **new technologies** are facilitating the integration of renewable energy and increasing the reliability of the grid

PLUS! Enhance your experience at Ontario Power by attending insightful, practical and informative workshops to move your business strategy forward

- A** A Guide to Successfully Navigating Through Ontario's New Regional Planning Process...
- B** Creating Lasting Partnerships with Aboriginal Stakeholders

Candid Discussions and Multiple Perspectives to Help You Navigate Ontario's Dynamic Power Sector

Get the clarity you need on the future direction of Ontario's power landscape. CI Energy Group's Ontario Power conference will bring together leading professionals from Ontario's energy industry in one room to exchange ideas and discuss practical solutions for navigating Ontario's power landscape. Stay up-to-date with a wealth of information to give your organization the **insights, strategies and practical advice** needed to operate successfully in Ontario's evolving power sector.

With the release of the Long Term Energy Plan bringing a new direction to Ontario energy policy, *it is essential* that your organization is equipped with the critical information necessary to ensure your business strategy is positioned for success. From nuclear refurbishment to integrating Ontario's renewable supply, it is critical to understand how the changing dynamics will impact your operations.

Attend this two day forum to position your organization to effectively capitalize in Ontario's evolving power sector. Hear from leading power industry experts and peers discuss the issues most important to you including:

- How the **Long Term Energy Plan** is impacting the future direction of the Ontario power sector
- **Nuclear refurbishment** and the challenges this poses for managing Ontario's power generation assets
- The future role and increased importance of **natural gas generation** in Ontario's supply mix
- How **demand side management** and pricing signals can be structured to incentivize consumer behaviour
- How **storage and smart technologies** are changing the traditional distribution framework
- Progress on developing **northern Ontario's power and infrastructure**

Plus! Add to your conference experience by attending **timely and interactive workshops** including:

- A** A Guide to Successfully Navigating Through Ontario's New Regional Planning Process to Get Your Project Permitted and Approved
- B** Creating Lasting Partnerships with Aboriginal Stakeholders: Supporting Long Term Development while Maintaining Sustainable Relationships

You cannot afford to miss this unique opportunity to gain valuable insight and information from your industry peers. Join us on April 15-16 in Toronto. Register today by calling 1-877-927-7936 or book online at www.OntarioPowerConference.com.

WHO YOU WILL MEET

Having the Ontario power sector's top professionals address critical issues that people are talking about today attracts a wide ranging delegate base. You will meet senior professionals in the following job functions:

Asset Management	Aboriginal Affairs	Power Developers	Manufacturers
System Operations	Energy Advisors	Generators	Local Utilities
Regulatory Affairs	Business Development	Energy Lawyers	Transmission Companies
Conservation Management	Operations Planning	Regulators	Energy Consultants
Chief Executive Officers	Corporate Affairs	Aboriginal Groups	Consumer Associations
Project Managers	Public Relations	Municipalities	Tech Venture Companies
Power Generation	Legal Affairs	Renewable Energy Companies	
Smart Grid Technology			

FROM

SPONSORED BY

Torys LLP is a respected international business law firm with a reputation for quality, creativity and teamwork. Torys' cross-border energy practice has top-ranked expertise and depth of resources in all aspects of the sector. Year after year, the projects we work on are recognized as the best in their class. www.torys.com

PARTNERS

All-Energy Canada Exhibition & Conference, the 3rd event in the global All-Energy series, is taking place at the Exhibition Place in Toronto, April 9-10, 2014, and for its first edition will bring together 200+ exhibitors and 2,500 industry professionals. Comprising a multi-stream world class conference, and a free-to-attend busy trade show showcasing the complete range of renewable and sustainable technologies, All-Energy Canada is a solutions-based event that will expand your horizons and expose your organisation to the widest range of complementary interests, partners, clients and customers. www.all-energy.ca

In the rapidly changing climate of today's power industry, Electricity Today continues to be the publication of choice for North America's transmission and distribution sectors. Electricity Today is published nine times a year by The Canadian Electricity Forum, a leading publishing and training company for the electrical power and engineering industry. www.electricity-today.com

Founded in 1891, CEA is governed by a Board of Directors comprised of senior executives from its Corporate Utility Members. CEA offers members a broad range of innovative programs and services in addition to delivering a coherent and convincing industry viewpoint to decision makers on critical policy and regulatory issues. CEA members generate, transmit and distribute electrical energy to industrial, commercial, residential and institutional customers across Canada every day. www.electricity.ca

SPONSORSHIP & EXHIBITION OPPORTUNITIES

Maximize your organization's visibility in front of key decision-makers in your target market. For more information, contact Director of Business Development Daniel Gellman at 416-927-0718 ext. 7389, toll-free 1-877-927-0718 ext. 7389 or by email at d.gellman@CanadianInstitute.com.

APPRO is a non-profit organization representing generators operating in the province of Ontario, and a variety of organizations and individuals concerned with electrical power generation. APPRO has more than 100 members including developers, suppliers and consultants to power enterprises, both public and private, with an emphasis on implementing responsible and sustainable energy systems in Canada and around the world. www.appro.ca

NRG Expert is an independent energy market research and intelligence company. The company specializes in energy market research reports, energy market databases and energy consulting as well as detailed financial analysis and market forecasts. NRG Expert provides high quality research and data which is often hard to access elsewhere. The data and analysis produced is provided to the world's leading companies, consultancies and government bodies, giving them the data and statistics they need to make tough, cost conscious decisions about their energy infrastructure, energy projects, and energy business development strategies. www.nrgexpert.com

The Ontario Energy Association (OEA) aspires to be the most credible and trusted voice of the energy sector. We earn our reputation by being an integral and influential part of energy policy development and decision-making in Ontario. We represent Ontario's energy leaders including over 150 corporate members that span the full diversity of the energy industry. www.energiontario.ca

PRE-CONFERENCE WORKSHOPS

A A Guide to Successfully Navigating Through Ontario's Siting and Approval Process to Get Your Project Approved

9:00 a.m. – 12:00 p.m. (Registration Opens at 8:30 a.m.)

Workshop Leader

Marc Rose, MES, MCIP, RPPI
Senior Environmental Planner, Environment
[Aecom](#)

Navigating through Ontario's approval process can be a time consuming and elaborate process requiring extensive company resources. Changes to Ontario's regional planning process could increase the complexity of the process and increase stakeholder consultation. This workshop will examine Ontario's planning, siting and approval process, from initial application right through to project approval to keep your project on track and on budget.

- Examine the initial site selection and routing process for transmission, distribution and non-renewable generation proposals:
 - Understand the steps involved in site selection and routing
 - What stakeholders need to be engaged?
 - How has the new regional planning process changed party engagement?
- What are the criteria and requirements for site selection and routing?
 - Explore the environmental review process; Who are the parties involved?
- Environmental assessment process
 - Identifying and assessing alternatives
 - How does community engagement interact with regulatory and environmental approvals?
- Permits and licenses for operating

B Creating Lasting Partnerships with Aboriginal Stakeholders: Supporting Long Term Development while Maintaining Sustainable Relationships

1:00 p.m. – 4:00 p.m. (Registration Opens at 12:30 p.m.)

Workshop Leader

Herb Shields, MA
Aboriginal Relations Specialist, [Stantec](#)

Expanding power infrastructure and resource development in Ontario requires building meaningful, constructive and long lasting relationships with First Nation and Aboriginal communities. Forging a true partnership requires more than recognizing the needs of individual communities; it means building a relationship through fairness, respect and mutual benefit. This workshop will focus on the best principles and practices for achieving a successful partnership and creating a winning economic relationship with aboriginal stakeholders.

- How does a partnership approach differ from engagement and consultation? What are the key considerations?
- Examine methods to build trust and achieve a successful dialogue:
 - What are the first points of contact?
 - How do you build the confidence of the other party?
- Understand the importance of cross-cultural communication. How do you bridge cultural differences?
- What are the central elements to creating a meaningful partnership?
- Understand the importance of identifying the needs of each side?
- How can partnerships be configured? What are the options available? How should relationships be defined between parties?
- How has the Long Term Energy Plan changed the consultation requirements with First Nations?
- Cases and examples of successful partnerships

Conference Day 1 | Tuesday, April 15, 2014

7:45 **Registration Opens and Coffee Served**

8:45 **Opening Remarks by Conference Chair**

Charles Keizer
Partner, [Torys LLP](#)

8:55 **Introductory Address – The Latest Polls: Examining Current Public Opinion in the Ontario Power Sector**

Jason Lockhart
[Innovative Research Group](#)

9:10 **Keynote Address**

Chuck Farmer
Director of Conservation Integration, [Ontario Power Authority](#)

9:30 **The Long Term Energy Plan: Reacting to and Assessing the Future Direction of the Ontario Power Sector**

Chris Benedetti
Principal, [Sussex Strategy Group](#)

Mel Ydreos
Interim President and CEO, [Ontario Energy Association](#)

Kristopher Stevens
Executive Director, [Ontario Sustainable Energy Association](#)

Lisa MacLeod
Member of Ontario Provincial Parliament, Nepean-Carleton
[PC Energy Critic](#)

- Assess the major components of the Long Term Energy Plan in terms of:
 - Forecasted supply and demand going forward
 - Conservation and demand management
 - Reliability of the transmission and distribution system
 - Integration of renewables
 - System and market design changes
- How will the changes impact Ontario power rates going forward?
- Is this the right direction for Ontario's power sector?

10:15 **Network Coffee Break**

10:30 **Examining the Future Structure of Ontario's Electricity Market: Should Ontario Incorporate a Capacity Market or Alternative Structural Framework?**

Moderator

Charles Keizer
[Torys LLP](#)

AJ Goulding
President, [London Economics International LLC](#)

Stephen Somerville
Vice President, [Competitive Power Ventures LLC](#)

David James
Executive Director, Electricity Infrastructure Policy,
Department of Energy, [Government of Alberta](#)

Brian Rivard
Director of Markets
[Independent Electricity System Operator \(IESO\)](#)

- Explore the current electrical power framework. What are the advantages and disadvantages of the present set-up?
- How would a capacity market work?
 - How would a transition from the present structure be accomplished?

Register at 1-877-927-7936 (416-927-7936) or [OntarioPowerConference.com](#)

- What would happen to the Global Adjustment and long term contracts?
- What are advantages and disadvantages of a capacity market?
- Would a reversion to a regulated scheme be a better alternative? Does a centralized approach provide greater efficiencies?
- Are there other alternative structures that could better meet Ontario's needs?
- Which system is best for ratepayers? Which captures the true costs of generation?
- How would renewables and nuclear be affected under the alternative frameworks?

11:30 **LEGAL DISCUSSION PANEL: An Update on Regulatory Developments in Ontario's Distribution Sector and Impacts on the Operating Environment**

Moderator

Charles Keizer
Torys LLP

Andrew Taylor
Principle, **The Energy Boutique**

Andrew J. Sasso
Director, Regulatory Affairs & In-House Counsel
EnWin Utilities Ltd.

Amanda Klein
Director, Rates and Regulatory Affairs, **Toronto Hydro**

- Status report on proceedings before the Ontario Energy Board
- Explore the new regulatory framework for LDC's
- Update on rulings and pronouncements affecting the consolidation of LDC's
- Outcome of the latest decisions affecting distribution rates. What will be the impact on LDC's?
- Preview of upcoming cases and decisions that could impact power industry stakeholders
- Discuss improvements that could be made to the Ontario's regulatory model

12:15 **Networking Luncheon for Delegates and Speakers**

1:00 **Keynote Luncheon Address**

Hon. Bob Chiarelli
Minister of Energy, **Government of Ontario (Invited)**

1:25 **Exploring the State of the Nuclear Sector: Understanding the Challenges for Managing Ontario's Nuclear Assets and Human Resources During Refurbishment**

Moderator

Ron Oberth
President, **Organization of Canadian Nuclear Industries (OCI)**

Confirmed Representative
SNC Lavalin Nuclear

Mark Arnone
Vice President, Refurbishment Execution
Ontario Power Generation

Cedric Jobe
Director, Nuclear Supply, **Ontario Ministry of Energy**

- Assess the present state of the Canadian nuclear sector in light of the delayed build out of new nuclear generation in Ontario
- What is the current refurbishment schedule for Bruce and Darlington nuclear plants? Are the plans on track?
- What does refurbishment mean to the power system as a whole?

- Can the Canadian nuclear industry maintain their expertise with refurbishment and offshore work alone? How do you keep the industry vibrant?
- How will the Canadian nuclear industry workforce be impacted with the closure of Pickering Nuclear Generating Station?
- Examine how to use manpower most efficiently throughout the refurbishment schedule

Ontario's Generation Outlook

2:35 **Evaluating the Future Role of Natural Gas Generation as a Contributor to Ontario's Supply Mix**

Moderator

1

Edgar Van der Meer
Analyst, **NRG Expert**

Rick Jennings
Assistant Deputy Minister, Energy Supply, Transmission and Distribution Policy, **Ministry of Energy**

Shahrazad Rahbar
President, **Industrial Gas Users Association**

Dave Simpson
Vice President, Infranchise Sales,
Marketing and Customer Care, **Union Gas**

Marc Brouillette
Principal Consultant, **Strategic Policy Economics**

- Explore the current and future state of gas generation in Ontario's supply mix
- Assess natural gas generation as a supply replacement for nuclear units undergoing refurbishment. What impact will this have on Ontario's emission targets?
- Examine the adequacy of natural gas storage facilities
- How will the proposed conversion of part of the Trans Canada mainline to carry oil impact Ontario's gas supply?
- Does the province have the infrastructure in place to import Marcellus and Utica shale gas for generation?
- How will the increased use of gas for generation affect Ontario ratepayers?
- Understanding how the growing power generation load impacts gas markets and other users

3:25 **Networking Coffee Break**

3:35 **Minding the Supply Gap: Managing Ontario's Evolving Baseload Capacity Over the Next Decade**

Moderator

2

Aaron Emes
Partner, **Torys LLP**

Benjamin Grunfeld
Associate Director, Energy, **Navigant Consulting Inc**

Lana Paton
National Power & Utilities Leader, **PwC**

John Kourtoff
President and CEO, **Trillium Power Wind Corp**

- What are the demand/supply forecasts for power over the next decade?
- Are the current conservation measures as outlined in the Long Term Energy Plan enough to avoid adding new generation capacity?
- Examine the impact nuclear refurbishment will have on Ontario's baseload. Will there be a generation gap?
- How will nuclear generation be replaced? What are the options available?

- What role will renewables and storage technology play? Can power be imported from neighbouring provinces and states?
- Explore the potential for new large-scale hydro facilities

4:25 **Engaging Stakeholder Communities: Exploring Ontario's Integrated Regional Planning Process**

Moderator

Charles Keizer
Torys LLP

Shawna Peddle
Senior Project Manager,
Assessment, Permitting and Compliance Group
Stantec Consulting Ltd

Jeff Evenson
Vice President, Canadian Urban Institute

Julie Abouchar
Partner, Certified Environmental Law Specialist
Willms & Shier Environmental Lawyers LLP

Kaili Sermat-Harding
Assistant Deputy Minister (Acting), Renewables and Energy
Efficiency Division, Ontario Ministry of Energy

- What are the goals with an integrated regional planning system?
- How will this impact local siting and planning? How will this improve local stakeholder engagement and create buy-in?
- Examine how Ontario's 'Conservation First Policy' policy will affect regional planning
- Understand how the new regional planning process will connect local and provincial planning.
 - Does this give local authorities additional responsibility and control over local projects?
 - What happens when local and provincial authorities disagree?
- How will this impact the building of new generation facilities?
- How will this effect consultations with Metis and First Nations communities?

5:25 **Chair Closing Remarks and Conference Adjourns**

Conference Day 2 | Wednesday, April 16, 2014

8:15 **Coffee is Served**

8:40 **Opening Remarks by Conference Chair**

8:45 **Debating the Future LDC Landscape in Ontario – Examining the Progress to Date of Utility Sector Rationalization (highlight)**

Moderator

Charles Keizer
Partner, Torys LLP

Gary McNamara
Chair, Energy Task Force,
Association of Municipalities of Ontario, Mayor of Tecumseh

Jay Shepherd
Principal
Jay Shepherd Professional Corporation/Energy Chambers

Pelino Colaiacovo
Managing Director, Morrison Park Advisors

- Where does LDC rationalization currently stand in Ontario? What has happened to date?
- What is Hydro One's current role? Who is buying and who is selling? Will the private sector become a participant?
- Examine the motivating factors to amalgamate

- Are there benefits to rationalizing the sector? What are the savings? Is policy needed to drive the process further forward?
- Outlook for the utility sector ten years down the road

9:35 **Keynote Address**

John Moura
Director, Reliability Assessment
North American Electric Reliability Corporation

9:50 **Demand Side Management and Customer Engagement: Understanding How Pricing Signals and Rate Models Can Incentivize Behaviour**

Moderator

Elizabeth A McDonald
President and CEO, Canadian Energy Efficiency Alliance

Adam White
President, Association of Major Power Consumers

Sahar Mishriki
Strategy and Regulatory Manager,
Conservation and Demand Management, Hydro One

Tracy Lynch
Director of Energy Conservation, Union Gas

- Assess the LTEP's conservation targets:
 - What is the role of the IESO?
 - Are the LTEP's projected rate forecasts realistic?
- Examine Ontario's current industrial and residential rate structure? Does the current system allow flexibility to incentivise consumers?
- How do you recover costs while driving efficiencies? Do long term generation contracts and the Global Adjustment allow for price elasticity?
- How do prices and rate options compare with neighbouring jurisdictions?
- Explore potential new pricing models and demand response initiatives
- What role is gas currently playing in the energy conservation matrix? Can gas play a bigger role?
- Does Ontario have the infrastructure to support increased use of gas?
- How will the new Conservation Demand Management Framework impact LDCs? How will LDCs be accountable for conservation targets?
- Examine collaboration efforts between gas and electricity:
 - What current programs are in place?
 - What benefits can natural gas bring to the customer?
- Explore future potential uses for natural gas on the horizon
- What role can smart grids play?
- What does the ROI look like for conservation? How does this compare with building new generation?

10:50 **Network Coffee Break**

11:05 **SPECIAL ADDRESS: Examining the Next Chapter in the Toronto Urban Power Market**

Anthony Haines
President and Chief Executive Officer
Toronto Hydro Corporation

11:25 **Exploring How Storage and Smart Technologies are Changing Ontario's Transmission and Distribution Networks**

Moderator

Ken Nakahara
Director (A), Transmission and Distribution
Ontario Ministry of Energy

Robert Stasko
Executive Director, [Ontario Energy Storage Alliance \(OESA\)](#)

Leonard Kula
Director, Operations
[Independent Electricity System Operator \(IESO\)](#)

Ravi Seethapathy
Manager, Systems Innovation & Advanced Grid Development
[Hydro One](#)

George Pessione
Director, Resource Integration – Power System Planning
[Ontario Power Authority](#)

Aloke Gupta
Senior Energy Analyst, Energy Division
[California Public Utilities Commission](#)

- What is the value of storage to the grid system? When will storage finally achieve scalable implementation and reach its potential? Are we near the tipping point?
- How do you best integrate storage into the evolving supply mix?
- Examine how storage and smart tech is being implemented in other jurisdictions? How are markets and regulators reacting?
- How will currency frequency be managed?
- What are the pros and cons of storage? How can storage make renewables more cost effective?
- Case studies and real world applications of storage. What are some of the latest practical technologies?

12:40 Networking Luncheon for Delegates and Speakers

1:15 Keynote Luncheon Address

Hon. Joe Oliver
Minister of Natural Resources, [Government of Canada \(Invited\)](#)

1:50 Keynote Address

Hon Bob Rae
Lead Negotiator for Matawa Tribal Council and President
[First Nations Limited Partnership, BC](#)

2:10 Taking Stock of the North: An Overview of Progress to Develop and Power Ontarios' Northerly Regions

Douglas Moses
Chairperson, [Ontario First Nations Economic Developers Association \(OFNEDA\)](#)

Paul G. Semple, P. Eng.
Chief Operating Officer, [Noront Resources](#)

Adele Faubert
Manager of Aboriginal Affairs, Goldcorp Musslewhite Mine
[Goldcorp Inc.](#)

Christine Kaszycki
Assistant Deputy Minister for Ring of Fire Secretariat
Ministry of Northern Development and Mines
[Government of Ontario](#)

Mike Metatawabin
President
[Five Nations Energy Inc.](#)

- Status report on the East-West Transmission Tie Line. What are the timelines?
- Progress update on consultation initiatives with First Nations communities
- Assess plans for the new Northwest Bulk Transmission Line

- Who should take the lead in Ring of Fire development? How can government and industry work together
- Examine the latest developments in the Ring of Fire:
 - Update on the infrastructure and distribution build-out
- Explore the outlook for mining and resource development. What projects are advancing?
- Discuss progress on new and converted generation facilities

3:10

Networking Coffee Break

3:25

Examining the Challenges, Issues and Solutions for Integrating Ontario's Renewable Energy Supply into the Grid

Moderator

Charles Keizer
[Torys LLP](#)

Colin MacDonald, P. Eng.
VP, Rates and Regulatory Affairs, [PowerStream Inc.](#)

Travis Lusney
Senior Consultant, [Power Advisory LLC](#)

Ron Dizey
President and CEO, [ENBALA Power Networks](#)

- How is the power grid changing? What does this mean for the system?
- What are the prime sources of distributed generation? Can this be a replacement for large scale generation development?
- Updates on the large scale renewable competitive procurement process
- What are the technical challenges of integration? What solutions need to be developed?
- How are wind and solar operators dealing with the government scaling back of the purchase of power? What is the impact on operations and returns?

4:15

The Political Pundits Panel: Reading the Partisan Tea Leaves to Assess the Future Direction and Strategy of Energy Policy

Moderator

Chris Benedetti
Principal, [Sussex Strategy Group](#)

David Butters
President, [Association of Power Producers of Ontario](#)

Tim Murphy
Partner, [McMillan](#)

Karl Baldauf
Senior Consultant, Corporate and Public Affairs
[NATIONAL Public Relations](#)

- Explore how energy policy could change over the coming year
- Examine the central themes and positions of the political parties over the next election cycle?
- What are their major policy differences?
 - How will their proposals impact Ontario power sector stakeholders going forward?
- How will policy differences impact Ontario's economic and investment climate?
- Should Ontario have an industrial economic policy to attract investment?

5:00

Top Reasons to Attend

- ✓ Understand how the Long Term Energy Plan will impact the future direction of the Ontario power industry
- ✓ Network with leading experts and fellow peers who are shaping the Ontario power sector landscape
- ✓ Examine how provincial demand side management and conservation initiatives will affect the state of generation demand and supply going forward
- ✓ Gain insight into the challenges nuclear refurbishment will bring for the management of generation assets and human resources over the next decade
- ✓ Explore how storage technologies and renewable power is changing Ontario's electrical grid framework

ADMINISTRATIVE DETAILS

VENUE: Marriott Bloor Yorkville
ADDRESS: 90 Bloor Street East, Toronto, ON
TEL.: 416-961-8000 or 1-800-859-7180

Hotel Reservations

For information on hotel room availability and reservations, please contact Marriott Bloor Yorkville at 416-961-8000 and request the "The Canadian Institute's Corporate Rate". To book online, please go to the Marriott Bloor Yorkville website and click the "Special Rates & Awards" drop down menu and use Corporate/Promotional Code "KN8".

Registration Fee

The fee includes the program, all program materials, coffee breaks and lunches.

Payment Policy

Payment must be received in full by the program date to ensure admittance. All discounts will be applied to the Program Only fee (excluding add-ons), cannot be combined with any other offer, and must be paid in full at time of order. **Group discounts available to 4 or more individuals employed by the same organization, who register at the same time. For more information on group rates, please call 1-877-927-7936.**

Cancellation and Refund Policy

You must notify us by email at least 48 hrs in advance if you wish to send a substitute participant. Delegates may not "share" a pass between multiple attendees without prior authorization. If you are unable to find a substitute, please notify **The Canadian Institute** in writing no later than 10 days prior to the program date and a credit voucher will be issued to you for the full amount paid. Credit Vouchers are valid for 1 year and are redeemable against any other program by **The Canadian Institute**. If you prefer, you may request a refund of fees paid less a 25% service charge. No credits or refunds will be given for cancellations received after 10 days prior to the program date. **The Canadian Institute** reserves the right to cancel any program it deems necessary and will, in such event, make a full refund of any registration fee, but will not be responsible for airfare, hotel or other costs incurred by registrants. No liability is assumed by **The Canadian Institute** for changes in program date, content, speakers or venue.
